

Introducing Mobile Phone Recycling for the Enterprise

How does your firm handle retired mobile phones?

Retired mobile phones pose four critical challenges for your Enterprise:

- Scrubbing Proprietary Data
- Managing Environmental Toxins
- Extracting Economic Value
- Tracking Mobile Assets

Channel Systems solves all four!

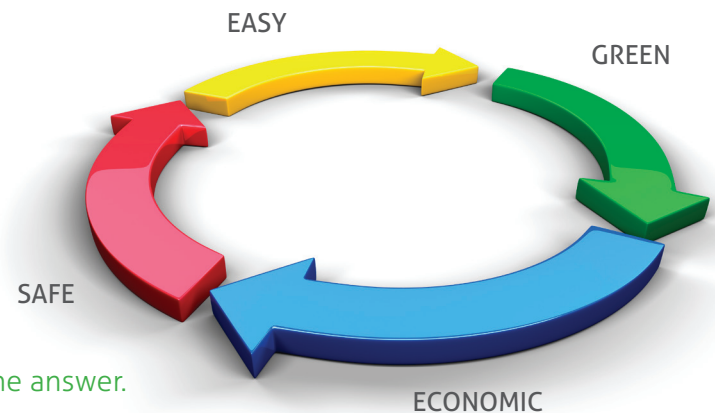

Channel Systems makes it easy to deal with retired mobile phones – safely and responsibly

You can't store or throw them away – they hold data, toxic materials and value. Our cost-free process maximizes data security and economic value to you while reducing environmental impact.

Channel Systems is different!

WE OFFER:

- Onsite data removal option
- Relentless commitment to security
- Innovative charitable platform
- Continuous process auditing and transparency
- Global reach
- Thought leadership for compliance officers

Channel Systems recycling is the answer.

Easy - Ship used mobile phones to us free of charge.

Secure - We scrub data using an industry-leading process.

Green - We have a strict no-landfill policy and commitment to reuse.

Traceable - Track phones throughout the process.

Economic - We return real value for every mobile device you send us.

A new level of service for mobile phone recycling.

- Onsite data scrubbing option
- Charitable choice
- Special offerings for sustainability officers
- Fast, flexible payments to you
- Audited security using OEM certified tools
- Corporate program development, compliance monitoring
